Four Components of the Law

- **All schools must have the following:**
  - Emergency Operations Plan (traditional safety plan)
    - https://saferschools.ohio.gov/content/school_safety_plans
    - Contains protocols and procedures that address various threats and incidents
  - Floor plan unique to each floor of the building
    - Model plan: https://saferschools.ohio.gov/sites/default/files/Floor%20Plan%20Guidance.pdf
    - One .pdf will contain all floor plans; each floor is a separate page
  - Site Plan that includes all building property and surrounding property
    - Model plan: https://saferschools.ohio.gov/sites/default/files/Model%20School%20Site%20Plans.pdf
    - Includes the view of your facility and all surrounding areas and street names
  - Emergency Contact Sheet
    - Template available on https://saferschools.ohio.gov/content/school_safety_plans
    - Focuses on key decision makers, emergency services, custodial, etc.

"7 arrests made as 'creepy clown' threat spreads."   http://www.cincinnati.com/

The Clown Threat

Lessons Learned #1:

A social media threat can impact school operations like an actual physical attack.

- *Today's grapevine but global in reach…*
- *Unlimited access – 24/7…*
- *Blurs "virtual" world and "real" world…*
- *A "virtual story" may be perceived as more credible than the district official message…*
- *Threat environment is virtual and physical*

How do we better manage safety with this technology?
