2016-207

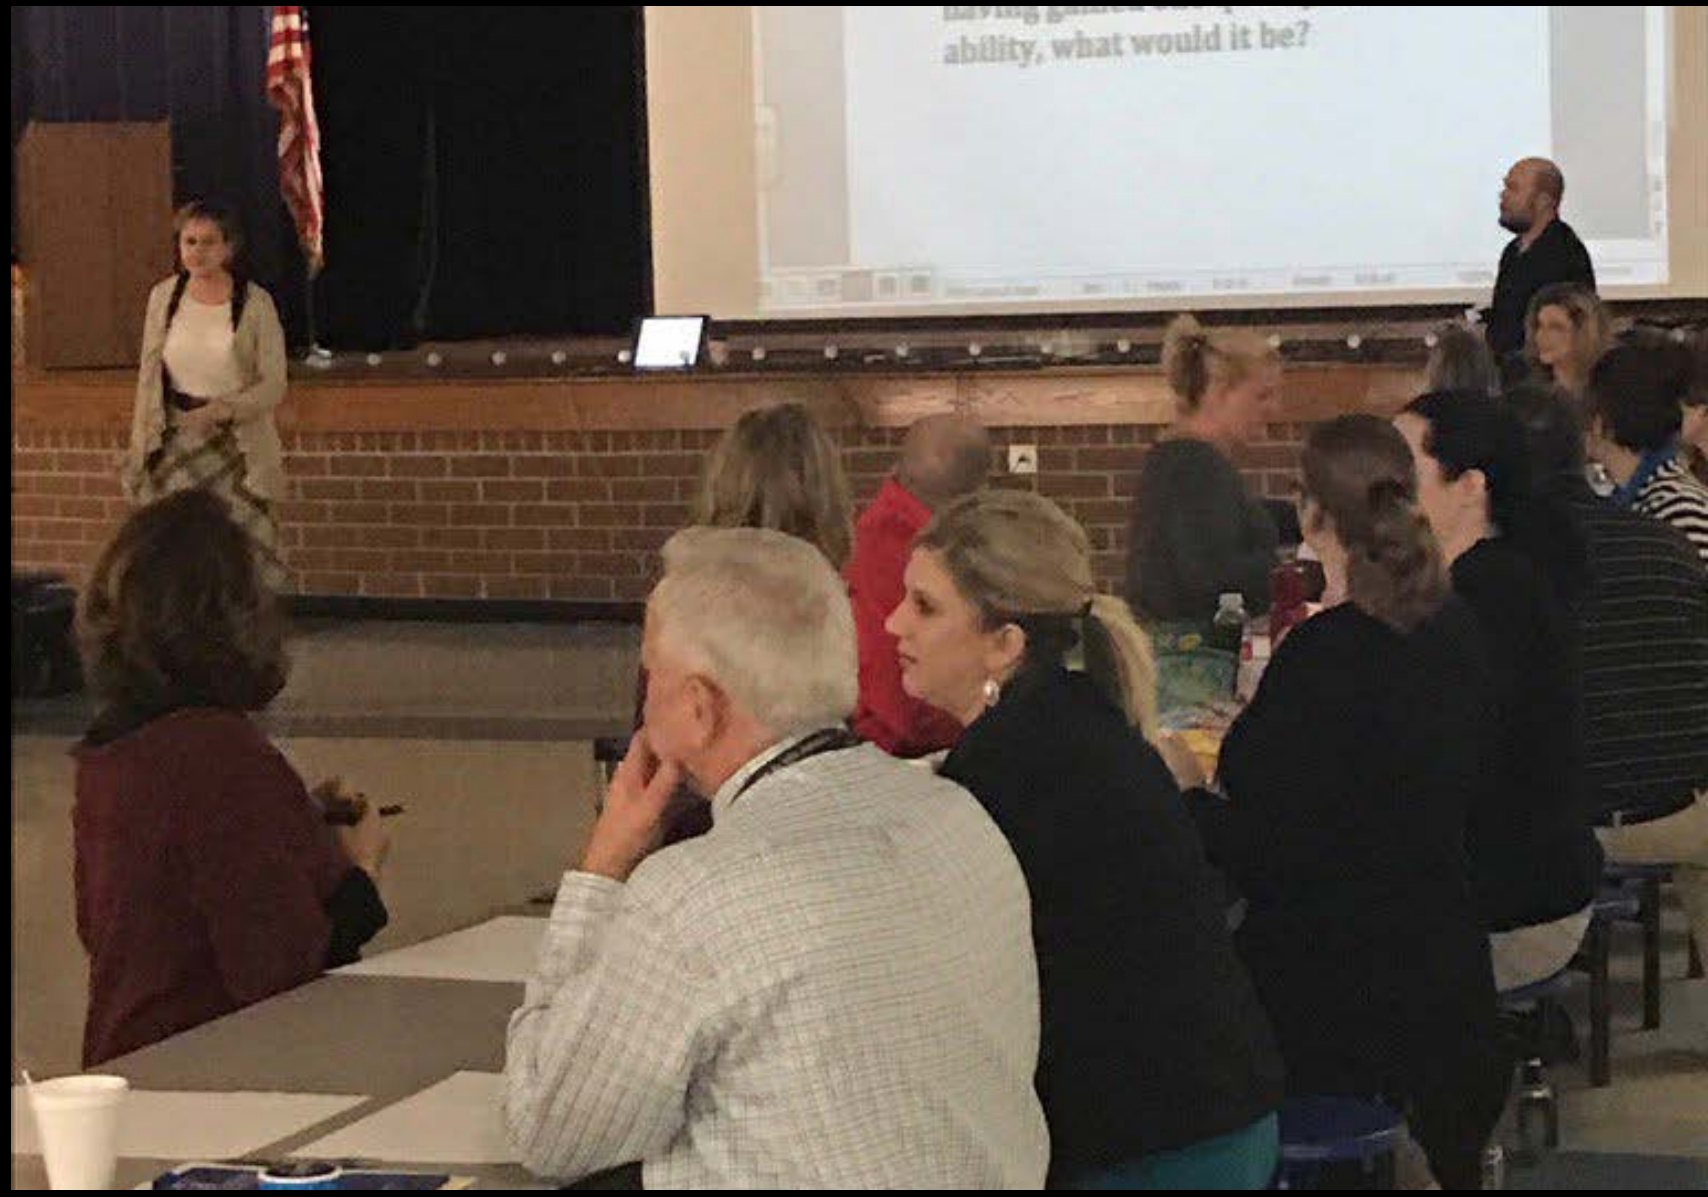
Leadership Course

Our Leadership Participants

We had 22 staff members participate in our initial running of the course.

Developing People

Our professional development activities began focusing on growing as people and improving as a team.



Innovative Ideas Professional Development

After our Leadership Course concluded, we held a two hour professional development session, where staff created ideas to improve the culture of our school.

Ideas in Action

- Creation of a High School Coding Club that was featured on the local news.
- Teachers creating relevant lessons that turned their classrooms into places of business
